a. Park report, Cll Russell

Hedges & meadow:

Contractor Gristwood has carried out cut back of hedges and wildflower meadow and adjoining overgrown area as discussed in previous meetings. There has been positive response from neighboring properties. The result appears enough and tidy. Some tire track marks left due to soft ground but not excessive. As previously noted, this works should be included in as regular annual jobs, which I suggest would ideally be carried out Nov/Dec. Preferably in colder weather which would provide harder ground.

Sign:

Sign is complete but yet to be installed hopefully will manage to do so this month.

Park repairs

A swing leg replacement was ordered in November last year from Playdale (leg under guarantee, but labour to be charged). I don't think this has been progressed beyond acknowledgement by Playdale so I checked up on this have been assured that replacement is scheduled for the next couple of weeks."

12. Financial Matters – RFO Report

1/ Items for report

- Annual audit is due soon. This year the internal auditor has elected to do this using an iterative process which started at the end of last year. This mean that I have already furnished him with much of the documentation that he needs to make his determination about our records, governance procedures and finance. (I have not yet heard for the external auditors. I think this is because we applied for and were successfully granted exemption from external audit due to our small size).
- HRMC Registration for payroll is complete. To ensure that the Hon Sec's pay does not exceed the monthly threshold for NIC contributions, it has been agreed that she be paid quarterly henceforth.

2/ Items for discussion/decision

- Oxfordshire Fields association renewal £42, OK to renew

3/ Payments for approval

Cllr Russell noted:-I have been informed by Charlotte Brewerton (emails 29th and 30/01/2019) that all conditions for the Fernham Fields (P16/V2751/DIS related to P12/V0138/0) have now been discharged (with a note that the contamination condition was a partial discharge given final reports are awaited). She confirmed that any changes issues with no compliance with conditions should be taken up with Enforcement.

My reading of the final approved plans are that a “1.8 m high Elvenden Mixed Native instant hedge” should be installed along much of the Coxwell road edge of the development.

14. Footpath 231/10 - Path behind riding stables

Cllr May, Revised quotation received from Contactor escalation in costs, increase in cost of Tarmac and materials.

Likelihood of escalation in costs if delays are too great

A Liddiard happy to proceed up to beginning of April thereafter wait till sept/oct and possibility of price increase.

Cllr Russell, Update on Section 106 monies Following the contract received from Vale of the White horse for S106 money towards the improvement of the Path behind the stables from the Fernham Fields ‘Parish Contribution’ I have been trying to determine the status of the OCC contribution. Silke O’Farrell (Vale officer dealing our application for the Fernham S106 money for the path) has been liaising with OCC as Vale approval of the funds was contingent on OCC money also being available for the project. She has been speaking with Howard Cox at OCC who had a previous exchange with Judith Heathcoat on this matter. I spoke to her 4th March to ask her the status with the OCC case and if anything, further was required from us to OCC. She said that the Vale had the money from the Steeds, was ready to transfer it to OCC but wasn’t sure that this transfer had occurred. She was going to check regarding the transfer and speak to Howard to determine OCC readiness to provide us with a contract. I haven’t yet heard back on either of these points. Further information in councilors information document
